

# Baptistry Drip Landing

Drip Landings are built into the floor at the top of the baptistry steps. It is a location for the candidate to remove their baptismal garment to reduce tracking water through the church.

Available in 4 colors: *Aqua*  
—*Blue*—*White*—*Beige*

Each unit has a slip resistant surface. Water is channeled to a center drain position. (supplied by others)

May be plumbed directly into baptistry drain
