

The Pre-Plumbed Baptistry

Avoid the added time and expense of a plumber... Have your Baptistry arrive with a PBH Heater, E-Z Fill, drain holes cut, windows and operational controls already installed. The only thing that you will need to do is connect the water line, attach the drain, and install power to the heater.

Over 40 years of Pre-Plumbing Experience

Typical Installation on a Portable Baptistry

Typical installation on a Standard Baptistry

E-Z Fill System (Standard Baptisteries only)

Installed Triple Seal Window

*All Pre-Plumbed units are tested for leaks and defects before leaving the facility.
