[Wall Cross Link](#)

Piedmont Composites and Tooling manufactures beautiful fiberglass wall crosses. Our crosses are made of the same durable material as our steeples, which makes them perfect for indoor or outdoor use. We manufacture 6 different models to choose from as well as 2 styles (star or square) for each model. We use white as our standard color; however, we can add gold, copper, or a custom color for an additional fee. Having them LED backlit adds a glorious effect that all will enjoy!
