COMPOSITES & TOOLING

Free Standing Cross Models 2024

Piedmont Composites and Tooling manufactures beautiful fiberglass free standing crosses (FSC). Our crosses are made of the same durable material as our steeples, which makes them perfect for outdoor use. We manufacture two different lines to choose from. We use white, copper or gold as our standard colors; however, we can add a custom color for an additional 50% upcharge off base price. Price includes ground mounting bracket. Call for roof mount bracket pricing.
